ABOUT

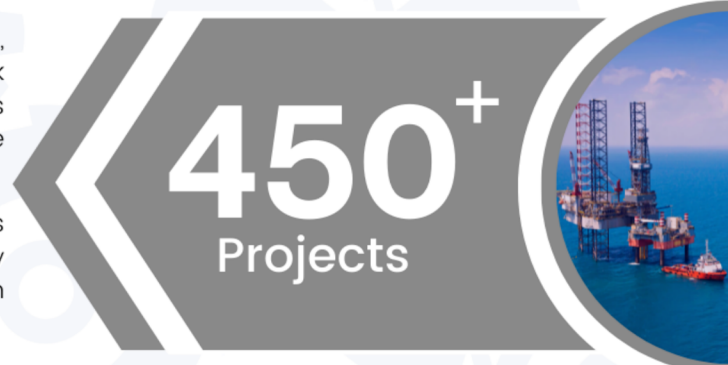

Over the years, as the workforce increased significantly, strategical developments were made to provide innovative and effective technical services.

Today, AVENIR has grown into a multidisciplinary Engineering and Consulting company that delivers strategic, technical, and cost driven solutions to its clients across various industries and geographies.

AVENIR's exceptionally dedicated multidisciplinary engineering team, has successfully completed 450+ projects and has a proven track record in safe, efficient, and skillful execution of all its ventures and has been successful at delivering its innovative and cost-effective solutions to its clients and partners.

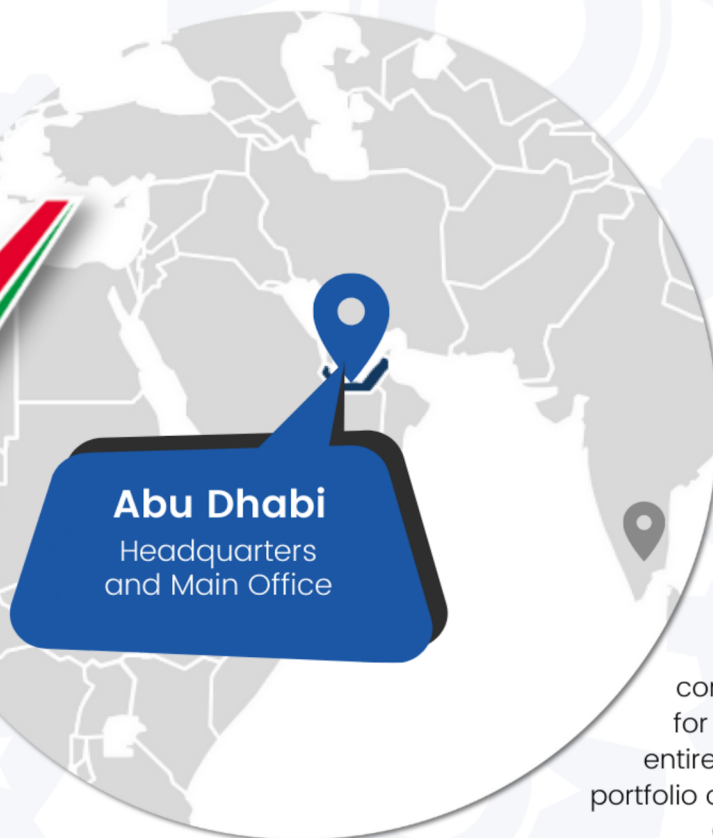

AVENIR has been tremendously careful at meeting the business requirements on-time and has been commendable at it. This has only increased the credibility of the company in the industries it has been servicing and it strives to add value to all the projects it undertakes.

Starting off with just 4 people, AVENIR now boasts of 300+ skilled professionals working efficiently over different time-zones and geographies.

AVENIR's top management as well as department heads have vast experience of over 20 years in Oil & Gas, Power, Water, and Infrastructure related projects.

AVENIR's highly experienced skillset in Process, Piping, Civil, Mechanical, Electrical & Instrumentation domains who are well-poised to effectively mobilize and handle the engineering requirements suiting the clients' needs.

HIGH ICV

AVENIR is a multidisciplinary engineering company in UAE, providing technical and cost driven solutions to its clients focused on upstream and downstream oil and gas facilities development.

Its portfolio is in FEED, Detailed Engineering and Digital Asset services (3D Modeling, Smart Plant and Digital Twin solutions).

AVENIR is ADNOC approved consultant. It is the market leader for DIGITAL ASSET services, AVENIR entirely produces and delivers all its portfolio of services from its Engineering Center stationed in Abu Dhabi.

AVENIR is ISO 9001,
ISO 14001 and
ISO 45001 Certified.

SERVICES

Drafting and Smart Plant Services have been strategized keeping Customer Satisfaction and requirements in mind.

AVENIR conducts discipline-specific site surveys and uses the following techniques:

- **3D Modelling** (PDS, SP3D & PDMS, E3D, CADWorx)
- **Smart Plant Solutions** (SPI, SPPID, SPEL, SPF)
- **AVEVA Suite** (AVEVA P&ID, AVEVA Instrumentation)
- **As-Built Services**
- **Laser Scanning**

DIGITAL ASSETS & DEVELOPMENT

ENGINEERING SERVICES

AVENIR specializes in Process Selection and optimum Equipment Configuration along with a multi-disciplinary approach from Concept to Detailed Engineering.

Its innovative solutions and capabilities include:

- **Concept & Feasibility Studies**
- **FEED & Detail Engineering**
 - Process and Simulation
 - Mechanical and Piping
 - Civil and Structural
 - Electrical & Instrumentation
 - HAZID, HAZOP and SIL Studies

AVENIR provides unmatched assistance in Management and Consulting along with the best industry practices in Sourcing Materials and Equipment at very Competitive Prices.

It specializes in:

- **Project Management and Consulting (PMC)**
- **Resource Secondment**
- **Procurement Support**
- **NDT and Inspection**

TECHNICAL ASSISTANCE & PROCUREMENT
